

Lyrics

Chorus:

Let's all unite to stop rabies, all of us, you, you and me.
Let's all hold hands to stop rabies in Africa and Asia.
Let's unite to stop rabies in the mainland, coast and Zanzibar.
Let's all unite to stop rabies, you, you and me.
Let's unite to stop rabies for everyone.

Verse (man - 1):

Let's take our animals for vaccination against rabies.
Don't let your animals roam free without taking care of them.
Father, mother - prevention is better than treatment.
My friends, rabies is dangerous. It kills.
Father, mother - prevention is better than treatment.
My friends, rabies is dangerous. It kills.

Verse (woman):

The people of Tanzania have this to say: "Don't delay – it will do you no good".
When you are bitten go straight for vaccination.
Don't ignore this precaution or you will die.
Don't ignore this precaution or you will die.

Chorus:

Let's all unite to stop rabies, all of us, you, you and me.
Let's all hold hands to stop rabies, all of us in Africa and Asia.
Let's all unite to stop rabies, all of us brothers, sisters and friends.

Verse (man – 2):

Be careful,
It's a dangerous disease,
Because here [in Africa] we are in danger [from rabies]
You be careful.

Verse (man – 3):

My dear Tanzanians, it's time for us to take action [against rabies]
It's time for us to take action [against rabies]

Chorus:

Let's all unite to stop rabies, all of us, you, you and me.
Let's all hold hands to stop rabies, all of us in Africa and Asia.
Let's unite to stop rabies, all of us in the mainland, coast and Zanzibar.
Let's all unite to stop rabies, all of us brothers, sisters and friends.

"Communities Against Rabies Exposure" (CARE) is a project coordinated by the Global Alliance for Rabies Control and funded by the UBS Optimus Foundation. The Tanzanian component of the CARE project is led by the University of Glasgow (Tiziana Lembo, Katie Hampson and Jane Coutts) and the Ifakara Health Institute in Tanzania (Lwitiko Sikana).
